

# New grounding clamps from SSB-Electronic GmbH

for coaxial cables with 7 mm, 10 mm and 15 mm outer diameter

**NEW!**

We introduce you our new grounding clamps for all common coaxial cables with 7 to 15 mm outer diameter.

- **Grounding clamp GC-7**  
Item no.: 6818  
Suitable for Aircell 7, Ecoflex 7 and all common coaxial cables with 7 mm outer diameter
- **Grounding clamp GC-10**  
Item no.: 6819  
Suitable for Ecoflex 10, Ecoflex 10 Plus, Aircom Premium and all common coaxial cables with 10 mm outer diameter
- **Grounding clamp GC-15**  
Item no.: 6820  
Suitable for Ecoflex 15, Ecoflex 15 Plus and all common coaxial cables with 15 mm outer diameter

### Advantages of our new grounding clamps

Our grounding clamps have a compact structure and can be installed fast and easy.

They are weatherproof and water-resistant according to the protection class IP 68, thus ensuring reliable overvoltage protection of the equipment or antenna system.

Our grounding clamps are extensively checked and subjected to rigorous quality tests, so they meet our high quality standards.

### Technical data

Grounding strap:	Rubber, SUS304
Water-seal mastic:	Butyl rubber
Braided tape:	Copper, tin-plated
O-ring washer:	Rubber, black
Grounding cable:	Copper (conductor); PVC (jacket)
Cable lug:	Copper, tin-plated
Contact resistance:	≤ 5 mΩ
Current shock withstanding:	≥ 20 KA (8/20 μs)
Insulation resistance:	10 GΩ
Temperature range:	-40°C +85°C
2011/65/EC RoHS:	Compliant
for outdoor use:	Yes, UV-resistant
IP protection class:	IP 68

### Test our new grounding clamps!

Further information, data sheets, assembly instructions etc. can be found on our website at [www.ssb-electronic.com](http://www.ssb-electronic.com).

In case of questions our team will be happy to help you.
