SSB NEWS

Innovative fiber optic solutions for demanding applications

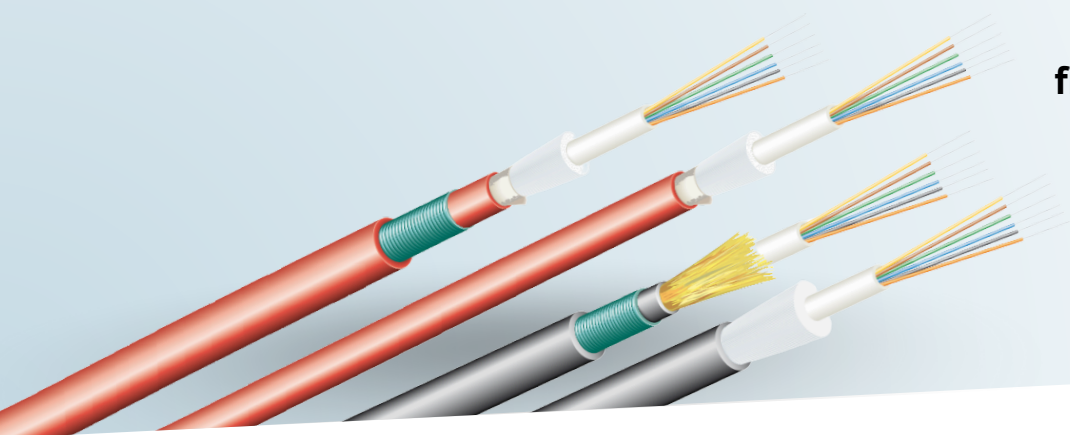

SSB-Electronic, as an experienced and innovative cable supplier, offers fiber optic cabling solutions for communications. With us, you'll find fiber optic cables that are precisely tailored to your application - whether standard cables or customized solutions.

Our fiber optic solutions in detail:

- **Robust universal fiber optic cables** with a central loose tube design for indoor and outdoor applications
- **Fiber optic cables with fire protection classes B2ca and Cca** according to EN 50575 for buildings with very high fire protection requirements
- **Fiber optic cables with DNV approval** for marine and offshore applications and harsh environments

Do you need a customized solution? Please feel free to contact us!

We offer fiber optic cables customized to your specifications.

You can also use our
fiber optic cable configurator
for your inquiry:
